RISE IN WHEAT CHECKED.

OPENS STRONG AND HIGHER-NEWS MOSTLY BULLISH.

No attempt was made to do anything in 244625%c. January. Corn and oats were heavy and declined 4e each. Provisions were firm without much trading and closed unchanged.

Wheat showed some strength at the opening, principally because Liverpool had responded fairly well to yesterday's advance. here. Holders of lines already heavy were good bidders at the start, which was at bigging for May, an advance of 469 pc. A good deal was for sale at those prices, but the selling did not depress the price lower than bic, and shortly after a general ying movement set in, which carried the up to 35c. That advance, however, snort seiling breeze of such strength that in half an hour the advance had melted away, the decline not stop-ping until May was down to 36%c. The heavy dumping of long lines late yesterday made many strong traders afraid to risk their money in wheat at prices above 5%c and this fact had a good dear to do with and this fact had a good dear to do with augmenting the liquidation which carried prices down. Most of the routine news was bullish. Bradstreet's made the week's clearances of wheat and flour from both coasts, 5,110,624 bushels, compared with 3,-\$25,000 bushels the previous week and 2,his,000 bushels the corresponding week of last year. Chicago received to cars of wheat, only two of which were contract. Minneapolis and Duluth receipts were 230 cars, against 288 a week ago and 189 last year. The total receipts at Western primary markets were 23,000 bushels, against 266,000 bushels the year before. The day's clearances from Attantic ports were again heavy, amounting in wheat and four to amounting in wheat and flour to bushels. This latter item injected temporary strength into the market, May ecovering to 97-54972c, but it soon feil back again under renewed offerings and back again under renewed offerings and to a lower level than before, %5'se being touched before the reaction came. Shortly before the close the market was given sup-port, Leiter brokers being credited with good buying at the bottom figures, and May advanced to 36'sc, where it closed. July was relatively heavier than May. It opened at from 86'sc to 5'c, and the latter was the highest it reached all day. It sold as highest it reached all day. It sold as as 86c and closed at 864c, a loss of 15c. Corn was barely steady at a slight decline from yesterday's prices. The early decline in wheat started moderate liquidations in eorn and a decline ensued, which was not recovered. Scaboard demand was light and recovered. Scaboard demand was light and country offerings were said to be increasing. May ranged from 25% to 25% 25% c. and closed % lower, at 25% c. Oats were firm at the start, with good commission house buying and New York demand. Prices held well for a time but broke later under heavy liquidation by a firm which has been unloading for several days. Talk of rate cutting prevented the market from declining more than it did ket from declining more than it did y ranged from 25% 124 to 23% 24c, and sed the lower, at 24% 24% c. ittle was done in provisions, and prices kept within an exceptionally narro range. There was moderate selling range. There was moderate selling of stuff already showing good profits, but offerings were readily absorbed. Trade was principally of a scalping nature. At the close May pork was unchanged, at \$16; May laid, unchanged, at \$1.57\footnote{1}\text{2}\text{3}\text{4}\text{.90}, and May ribs, unchanged, at \$1.97\footnote{1}\text{.91}\text{4}\text{.90}, and May ribs, unchanged, at \$1.97\footnote{1}\text{.92}\text{.92}, wheat, 55 cats; corn, 250 cars; oats, 250 cars; hogs, \$6,000 head.

Wheat. The market seems to have lost tone yes-irday. There was a want of life in fu-ires and they closed lower. And cash heat here was draggy and weak in sym-ithy and what trading done was forand what trading done was forced, were a little stronger but not suficient to affect the market here. As most "shorts" have covered the market is get-ting heavy, as wheat is much higher than ting heavy, as wheat is much higher than flour and the latter refuses to advance. BUT LITTLE LIFE IN STOCKS AND THE MARKET HEAVY.

There Was Some Profit Taking Early and a Weak Feeling, but Later This Was Recovered and Net Gains Reported.

Yesterday as the previous days of the week was a quiet one at the banks. As usual on Saturday there was little doing aside from counter business, which was fair, Rates steady at 70% per cent, But little currency going to the country. Bank clearings, \$1.64.661, against \$1.38.720, an increase of \$72.341, a gainst \$1.38.720, an increase of \$72.341, a gain \$1.38.720, an increase of \$72.865, 74, against \$3.843.888, an increase of \$721.865, a gain of 1 per cent.

Eastern exchange still quiet.
Houston, Fible & Co., exchange brokers, quote it as follows: New York, 25c premium; Chicago, 15c discount; St. Louis, 25c The gold reserve yesterday was \$164,005,-478.
The New York bank statement Saturday showed an increase in loans of \$2,35,500; in deposits of \$8,011,400; in specie of \$2,45,200; in legal tenders, \$2,801,900, and in the surplus reserve of \$4,234,250, making it now \$55,909,450 above the 25 per cent rule.

A Hit at Arbitrage Trading.

New York, Jan. 29.—The governors of the New York Stock exchange to-day announced that they had adopted resolutions prohibiting arbitrage dealing between the local exchange and the stock exchanges of other cities. The resolution declared that the trading between the New York exchange and that of any other exchange of this country, based upon quotations from the floor of the New York exchange, had resulting in practically ignoring the commission law.

New York, Jan. 29.—Conditions favorable to more extensive trade are shown in the dry goods market at the close of the week's trading. The disposition of buyers is more in the line of free purchases. The returns for the week have been partially satisfactory. In cotton goods lines there has been but slight increase in the sales and this has been due to local causes in some sections. But there has been a noteworthy firmness in all lines of staple goods with prints in fair, steady demand. There have been some adjustments in the prices of American indigoes, but aside from these there are no quotable changes in the price situation in any class of goods. Jobbers, locally, have had a week which aggregated better than last week. Reports from out of town jobbing centers show that the interest taken by retailers in the market is neither slight nor fleeting.

OF INTEREST TO STOCKMEN.

HEAVY MEXICAN IMPORTS BRING OUT A GOVERNMENT REPORT.

It Was a Good Thing for Mexico and This Country Both-Enlargement of the Mule Market-Visitors at the Yards.

Washington, Jan. 29.—The remarkable growth of the exports of Mexican cattle to the United States forms the subject of a report to the state department from United States Consul Kindrick, at Cludad United States Consul Kindrick, at Cludad United States Consul Kindrick, at Cludad Consultations of the Consultation of the Consul Juarez. He says that while it was suppose the large exports were attributable to a de sire to forestail the mercased duties car ried by the Dingley act, yet this has prove to be erroneous, for the trade go-creasing steadily until the cattl the price of cattle for home consumption in Mexico will soon rise to a point where they cannot be profitably handled. There are not many cattle left in Mexico, and the quality exported to the United States is of a low grade, that have no effect on prices in the Southwest.

Omaha, Jan. 23.—The Nebraska Live Stock Men's Association has declared against the practice of operating mixed railroad trains in which way freight, cattle and passengers are carried. The associa-tion will have a lobby at the next legis-lature to have the practice broken up.

Further enlargement of trade facilities in the horse and mule business on Grand avenue is announced.

John T. Conway, who was with Robinson John T. Conway, who was with Robinson Bros, before they sold out their commission stable to Wolcott, Beers & Co. and Erwin, Grant & Co., has formed a partnership with his former bookkeeper, Luther Fountain, the firm to be known as Conway & Fountain. It is said the Scarritt estate is to build them, as soon as plans can be drawn, a brick and frame stable and mules pens at Twenty-fourth and Grand avenue. It will have a frontage of 156 feet on Grand avenue and a depth of 237 feet. It will have a capacity of 250 horses and 500 mules. It is said Captain W. S. Tough is also to build an extensive horse and mule barn at Twenty-third and Grand avenue in the spring.

"The cattle situation in Tayas is fairly."

"The cattle situation in Texas is fairly good," said W. H. Jennings, of San Anto-nio, who was at the yards yesterday, "There are fewer aged cattle on hand than "There are fewer aged cattle on hand than for a long time, but there are a good many Is and 2s in the country. If the spring proves a dry one as many cattle will be shipped to the territory as last year, but should a good rain come by the middle of March, many cattle that would otherwise come West would be bought for home pastures, of which there are many idle or half stocked ones now, and their owners stand ready to pay Western prices for young cattle, the weather permitting."

In accounting for so many medium and In accounting for so many medium and only fair fleshed cattle on the market the past week the Zeb F. Crider Live Stock Commission Company in a circular to the country yesterday says:

"A good many cattle were shipped in during the week because feed lots were in miserably bad condition. The weather was very unfavorable for putting on pounds and rather than take chances under such conditions owners preferred to take current low prices.

ditions owners preferred to take current low prices.

"The storms over a wide area and the awful condition of feed lots interfered with trade to a considerable extent in the feeder line and shipments of both stockers and feeders for the year to date show a loss of 600 cars, about 1,000 cars so far having been shipped against 1,000 a year ago. Of course, under such had conditions trade has been slow, but prices have been fast enough and if some of the buyers are not looking for somebody to help let go later on, the fat cattle market will have to strike a faster gait than it is now traveling."
